

Pupil premium strategy statement – St Lawrence Catholic Primary School

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and outcomes for disadvantaged pupils last academic year.

School overview

Detail	Data
Number of pupils in school	467
Proportion (%) of pupil premium eligible pupils	9% (38 pupils)
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2024/2025 to 2025/2026
Date this statement was published	October 2024
Date on which it will be reviewed	June 2025
Statement authorised by	<i>Leo Duggan</i> , Headteacher
Pupil premium lead	<i>Jodi Gough</i> , SENCO
Governor / Trustee lead	<i>Tom Gallahue</i>

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£ 75,480
Recovery premium funding allocation this academic year	£ 3,600
Pupil premium (and recovery premium) funding carried forward from previous years	£0
Total budget for this academic year	£ 79,080

Part A: Pupil premium strategy plan

Statement of intent

Our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve high attainment across all subject areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are challenged in the work that they're set
- act early to intervene at the point need is identified
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Assessments, observations, and discussions with pupils indicate underdeveloped oral language skills and vocabulary gaps among many disadvantaged pupils. These are evident from Reception through to KS2 and in general, are more prevalent among our disadvantaged pupils than their peers.

2	Assessments, observations, and discussions with pupils suggest disadvantaged pupils generally have greater difficulties with phonics than their peers. This negatively impacts their development as readers.
3	Internal and external assessments indicate that maths attainment among disadvantaged pupils is below that of non-disadvantaged pupils.
4	Assessments, observations and discussions with pupils suggest disadvantages pupils generally have greater difficulties with writing than that of non-disadvantaged pupils.
5	Our assessments, observations and discussions with pupils and families have identified social and emotional issues for many pupils. These challenges particularly affect disadvantaged pupils, including their attainment.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improved oral language skills and vocabulary among disadvantaged pupils.	Assessments and observations indicate significantly improved oral language among disadvantaged pupils. This is evident when triangulated with other sources of evidence, including engagement in lessons, book scrutiny and ongoing formative assessment.
Improved reading attainment among disadvantaged pupils.	KS2 reading outcomes in 2025/26 show that more than 75% of disadvantaged pupils met the expected standard.
Improved maths attainment for disadvantaged pupils at the end of KS2.	KS2 maths outcomes in 2025/26 show that more than 75% of disadvantaged pupils met the expected standard.
To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupils.	Sustained high levels of wellbeing by 2024/25 demonstrated by: a significant increase in participation in enrichment activities, particularly among disadvantaged pupils

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium) funding **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: **£26,360**

Activity	Evidence that supports this approach	Challenge number(s) addressed
Purchase of standardised diagnostic assessments.	Standardised tests can provide reliable insights into the specific strengths and weaknesses of each pupil to help ensure they receive the correct additional support through interventions or teacher instruction: Standardised tests Assessing and Monitoring Pupil Progress Education Endowment Foundation EEF	1, 2, 3, 4
Embedding speech and language activities across the school curriculum. These can support pupils to articulate key ideas, consolidate understanding and extend vocabulary. We will purchase resources and fund ongoing teacher training and release time.	There is a strong evidence base that suggests oral language interventions, including dialogic activities such as high-quality classroom discussion, are inexpensive to implement with high impacts on reading: Oral language interventions Toolkit Strand Education Endowment Foundation EEF	1
Purchase of a DfE validated Systematic Synthetic Phonics programme (Monster Phonics) to secure stronger phonics teaching for all pupils.	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils: Phonics Toolkit Strand Education Endowment Foundation EEF	2
Enhancement of our maths teaching and curriculum planning in line with DfE and EEF guidance. We will fund teacher release time to embed key elements of guidance in school and to access CPD (including Teaching for Mastery training).	The DfE non-statutory guidance has been produced in conjunction with the National Centre for Excellence in the Teaching of Mathematics, drawing on evidence-based approaches: Maths guidance KS 1 and 2.pdf (publishing.service.gov.uk) The EEF guidance is based on a range of the best available evidence: Improving Mathematics in Key Stages 2 and 3	3

Whole staff training in Talk for Writing to improve the teaching of writing across the school.	Evidence suggests that improved oral language improves writing outcomes.	4
Improve the quality of social, emotional and mental health of our pupils. Social and Emotional learning approaches will be embedded into routine educational practices and supported by professional development and training for staff.	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes, behaviour and relationships with peers): EEF Social and Emotional Learning.pdf(educationendowmentfoundation.org.uk)	5

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: **£25,200**

Activity	Evidence that supports this approach	Challenge number(s) addressed
Use of Nuffield Early Language Intervention (NELI) to improve listening, narrative and vocabulary skills for disadvantaged pupils in Early Years who have relatively low spoken language skills. Use of a speech and language therapist to improve listening, narrative and vocabulary skills for disadvantaged pupils in Key stage 1 and 2 who have identified SAL needs.	Oral language interventions can have a positive impact on pupils' language skills. Approaches that focus on speaking, listening and a combination of the two show positive impacts on attainment: Oral language interventions EEF (educationendowmentfoundation.org.uk)	1, 4
Additional phonics sessions targeted at disadvantaged pupils who require further phonics support.	Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly from disadvantaged backgrounds. Targeted phonics interventions have been shown to be more effective when delivered as regular sessions over a period up to 12 weeks:	2

	Phonics Toolkit Strand Education Endowment Foundation EEF	
--	---	--

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: **£27,520**

Activity	Evidence that supports this approach	Challenge number(s) addressed
Whole staff training on trauma informed practice with the aim of developing our school ethos and improving behaviour across school.	Both targeted interventions and universal approaches can have positive overall effects: Behaviour interventions EEF (educationendowmentfoundation.org.uk)	5
Employing an art therapist through the ConnectEd to work with disadvantaged pupils with SEMH needs.	Both targeted interventions and universal approaches can have positive overall effects: Behaviour interventions EEF (educationendowmentfoundation.org.uk)	5
Training and continued professional development of two emotional literacy support assistants (ELSA's) to increase emotional literacy and wellbeing of our pupils.	Both targeted interventions and universal approaches can have positive overall effects: Behaviour interventions EEF (educationendowmentfoundation.org.uk)	5
Contingency fund for acute issues.	Based on our experiences and those of similar schools to ours, we have identified a need to set a small amount of funding aside to respond quickly to needs that have not yet been identified.	All

Total budgeted cost: £ 79,080

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

We have analysed the performance of our school's disadvantaged pupils during the 2023/24 academic year using key stage 2 performance data, phonics check results and our own internal assessments.

In Early Years we used the Language screen data to track the progress made. 67% of disadvantaged children showed 'no concerns' at the end of Reception, allowing for the best possible start in Key Stage 1.

In Key Stage 1 50% of disadvantaged children passed the Year 1 phonics screen. In Key Stage 2 75% of disadvantaged children passed their end of year statutory assessments.

Data from tests and assessments suggest that, despite some strong individual performances, the progress and attainment of the school's disadvantaged pupils in 2023/24 was below our expectations. Our analysis suggests that the reason for this is disadvantaged children with special educational needs. Progress of some children is affected by further barriers to learning.

Externally provided programmes

Programme	Provider
Nuffield Early Language Intervention	Oxford Education
Emotional Literacy Support Assistants	Education Psychology
Art therapy	Connect-Ed

Further information

Additional activity

Our pupil premium strategy will be supplemented by additional activity that is not being funded by pupil premium or recovery premium. That will include:

- Development of school hub – food bank, clothing and technology support for families.
- offering a wide range of high-quality extracurricular activities to boost wellbeing, behaviour, attendance, and aspiration. Activities will focus on building life skills such as confidence, resilience, and socialising. Disadvantaged pupils will be encouraged and supported to participate.
