

Miss Rebecca Macken

Link Governor for RE, Chair of Curriculum committee, member of Resources committee

My name is Rebecca Macken and I have been a Foundation Governor since September 2022. I am currently serving as RE Governor.

I also sit on Resources sub-committee and I am chair of the Curriculum sub-committee. I decided to join the governors board as I am a past pupil at this school, and even though I left St. Lawrence in 2007, I have never stopped caring about the school community and I wanted to give something back to this wonderful school.

I found it particularly incredible that many of the teachers who taught at the school when I was a pupil are still here when I have returned as a governor - this speaks for itself as to what a special place St. Lawrence's is.

In my day job I am a midwife at our local West Middlesex Hospital, which is such a privilege, but also very surreal that I could be delivering babies who may be future pupils at this school! Whilst I don't have experience that you may typically find amongst members of our governing board (finance, facilities, education etc), I do believe that the most important requirement to be a governor is to care about the school community, which I wholeheartedly do. My aim as a governor is to ensure that St. Lawrence continues to be a unique and special place to learn and develop as a young person.
