PE and Sport Premium Report 2025–2026

This report summarises how St Lawrence Catholic Primary School used its PE and Sport Premium during 2025–26 and the impact recorded in the school's monitoring form. The school confirms that it received and spent £17,972. The Arbor report itemises £14,101.59 in gross transactions, and the school confirms a further £3,870.41 was spent on Sports Impact coaching.

Funding	Amount
Funding received	£17,972
Total funding spent	£17,972
Funding carried forward	£0

Arbor records £11,842.82 net expenditure and £2,258.77 VAT, giving £14,101.59 in gross transactions. The school confirms an additional £3,870.41 for Sports Impact coaching. Total expenditure therefore matches the £17,972 funding received.

How we used the funding and the impact

Increasing activity for pupils who are less active

We developed lunchtime and playtime activities to encourage pupils who were less active to join in. Young Leaders supported children in Reception, Year 1 and Year 2 and helped identify pupils who were not yet taking part. We planned activities with input from the SENDCo and pupil voice, and organised playground areas for different activities.

The monitoring form records calmer transitions, more active lunchtimes and positive feedback from Young Leaders. It also records that pupils enjoyed helping others take part. The Arbor ledger includes £4,595.59 gross for equipment and resources, including a three-year Get Set for PE subscription, sports equipment, storage and equipment safety inspection. Staff training was delivered during an INSET day at no additional cost.

Developing pupils' experience of sport

In January 2026, pupils from the girls' football club and three members of staff attended the FIFA Women's Champions Cup at Brentford's Gtech Stadium. The monitoring form gives an approximate cost of £60 for travel and staff cover. Arbor records £55 in travel costs for a girls' football competition on 16 January 2026. The visit gave pupils the opportunity to watch professional sport and was intended to encourage participation, teamwork and resilience.

Supporting high-quality PE teaching

The Arbor ledger records £7,440 gross for Sports Impact coaching services and £1,591.20 gross for a Sports Impact Bronze Membership. The school confirms a further £3,870.41 was spent on Sports Impact coaching. Total coaching expenditure was therefore £11,310.41. The monitoring form identifies the coach partnership as supporting PE teaching across the school, with intended benefits including constructive feedback, stronger subject knowledge and preparation for competitions.

Swimming and water safety

The monitoring form records that the first Year 5 class completed swimming lessons in February 2026. Staff feedback was positive. Pupils showed confidence in trying different strokes and developed their understanding of floating, gliding, breathing and water safety.

Year 6 swimming outcomes are recorded below.

Year 6 swimming outcome	Percentage of pupils
Swam competently, confidently and proficiently over at least 25 metres	83%
Used a range of strokes effectively	71%
Performed safe self-rescue in different water-based situations	81%

Sustaining the improvements

Young Leaders can continue to support active playtimes, and the equipment purchased can be used in future years. The school intends to continue developing staff confidence and pupil participation through its PE provision and links with sports coaches. The final report should confirm which activities will continue and how ongoing costs will be met.

Arbor expenditure breakdown

The Arbor report itemises £14,101.59 in gross transactions, including £2,258.77 VAT. The school confirms a further £3,870.41 was spent on Sports Impact coaching, bringing total premium expenditure to £17,972.

DfE reporting category	Spend
Equipment and resources	£4,595.59
Memberships	£1,745.20
External coaching staff: Sports Impact, Arbor transactions	£7,440.00

Additional Sports Impact coaching, school-confirmed	£3,870.41
